

## **SNEC 11th (2017) International Photovoltaic Power Generation Conference & Exhibition**

SNEC (2017) PV POWER EXPO will be held from Apr.19-21,in Shanghai New International Expo Center (SNIEC).

SNEC2017 showcases PV manufacturing facilities, materials, PV cells & modules, PV application products, and PV project and system, covering every section of the whole PV industry chain. International Energy Storage Technology and Smart Grid &New Energy Vehicle and Charging Post Exhibition will be held at the same time.We expect over 1800 exhibitors and 160,000 sq. meters space.

Meanwhile,The Conference is taking place from Apr. 28 to 20 at the Kerry Hotel Pudong, Shanghai . It will cover all the aspects of photovoltaic technology and manufacturing, including equipments/devices, materials, processes, manufacturing, integration, as well as emerging photovoltaic technologies and applications. It will consist of various programmes incorporating different topics.

There will also be industry workshops on Advanced PV Technologies, Distributed Power Generation System, PV- and Storage- Equipments Manufacturing, PV Market Analysis & Overseas Investment.

It is an opportunity that you cannot miss to stay up to date on the technology and market, present your results to the community, and network with industrial experts, scholars and entrepreneurs and colleagues. We look forward to meeting with you at SNEC2017!
